#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The recitation of "slides relatively" at line 8 appears to be incomplete i.e. slides relatively to "what".

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Pillosio #4,054,033. Pillosio discloses a shoring device comprising a guide 21 on either end of the panel 10; a strutting assembly 22 each having two vertical struts held apart by at least one horizontal strut 34 fastened by bolts or pins; wherein the vertical strut is provided with a panel guide 28 to cooperatively interlock with the panel.

5. Claims 1, 2, 4, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Hess #5,310,289. Hess discloses a shoring device comprising a guide 28 on either

end of the panel 5; a vertical strutting assembly 6 each having two vertical struts held apart by at least one horizontal strut 7,8 fastened by bolts or pins; wherein the vertical strut is provided with a panel guide to cooperatively interlock with the panel and a roller 38.

6. Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Scheepers #4,421,440. Scheepers discloses a shoring device comprising cutting edges 32, 33 on the top and bottom of the panels, see also fig. 4.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pillosio '033 in view of Scheepers '440. Pillosio discloses the claimed invention except for the cutting edge on top of the panel. Scheepers teaches that it is known to provide a top cutting edge 33 as shown in figure 4. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide a top cutting edge, as taught by Scheepers in order to provide more versatile shoring panel.

9. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hess '289 in view of Scheepers '440. Hess discloses the claimed invention except for the cutting edge on top of the panel. Scheepers teaches that it is known to provide a top cutting edge 33 as shown in figure 4. It would have been obvious to one having ordinary skill in

the art at the time the invention was made to provide a top cutting edge, as taught by Scheepers in order to provide more versatile shoring panel.

***Response to Arguments***

10. Applicant's arguments with respect to claims 1-6 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick L. Lagman whose telephone number is 571-272-7043. The examiner can normally be reached on Monday-Friday 9:00am to 5:30pm.
